Mysore Public Works Deptt

To,

The Dewan of Mysore

for orders

I return the file of papers regarding the proposed retransfer of the present Travellers' Bungalow at Arkalgud to the Edn Deptt, for use as a School House, received with your endorsement of the 7th March 1894.

II The following are replies ~~seriatim~~ to your queries.

(1) The building was originally constructed for a School house, in 1866, at a cost of Rs 2797/. In 1875, one wing was given up, with the Concent of the Edn Deptt for the use of travellers. In 1881, the School was removed to the old Taluk Cutcherry in the Fort, and

since then the entire building appears to have been used by travellers. In 1885, the Education Secretary was asked whether the building will be required again as a School. ~~[illegible]~~ in converting the School into Travellers Bungalow

III Under the circumstances, I would recommend that the building be retransferred to the Edn. Department, and a small Travellers Bungalow constructed on the site mentioned in Dy Comrs. Lrs: 275 dy 27 July/92

Sd/ Dixon Campbell Lt Col

and he replied in his no. 208 dated 21st April/85 that it will not be required for educational purposes, it having been handed over to the Revenue Department in 1881 for use

Travellers Bungalow. In 1884, a sum of Rs 2,121 was

was spent by the Public Works Department in converting the building into a Travellers Bungalow.

2 Sent up letter No. 110 dated 25 ultimo, from the Executive Engineer Hassan Division, in which he reports in consultation with the Dy. Commissioner that the building is much too large for the purposes of a Travellers Bungalow.

3. The Executive Engineer and Dy. Commissioner are of opinion that it would be advisable to build a new Travellers Bungalow, which would cost less than a new school house - The present building is said to be quite adapted for a School, for which it was originally designed and constructed, and no expenditure will be necessary for adapting it for a School -

4. As noted above, a sum of Rs 2121 was spent in Converting the School into a Travellers Bungalow -

III Under the circumstances, I would recommend that the building be retransferred to the Education Department, and a small Travellers Bungalow constructed on the site mentioned in Dy. Commissioner's no. 245 dated 24th July 192

Building cost Rs. 2700

Educational Department deliberately gave it up because it was too far

D. P W Spent Rs 2100 for kitchens, Bath rooms Stables all needless accessories to a School

Are we to go on Changing to and fro in this fashion dropping so much money in the operation?

What is the Educational Secretary's Explanation?

(Sd) K S

Education Secretary's Memo

On the proposed transfer of the Travellers Bungalow at Arkalgud to the Education Department

Submitted for orders

7th June 1894

1 I submit a rough sketch showing the relative positions of schools in Arkalgud.

2 With reference to the Revenue Remarks on the Chief Engineers memo I submit the following additional information.

3 In 1881 there was no Municipal English school and no Government girls school at Arkalgud, and the Kannada Taluk school was very small. There were therefore at the time fairly good reasons justifying the Education Secretary to give up the new school building to the Revenue Department. The town of Arkalgud contains 600 inhabitants, 370 of whom are Brahmins. The Pettah contains 3900 inhabitants

The

The objection raised by the people of the Fort to the present Travellers Bungalow being used as the Taluk School was that little Children from the fort had to pass along the bund of the Tank to go to ~~from~~ the School what I now propose to do is to leave three or four primary classes for boys and the girls school in the Amildars house in the Fort, to place the higher classes of the Fort School and the whole of the Petta Branch School and the English classes now located in the Shirastdars Cutcherie in the present Travellers Bungalow, if Government is pleased to restore the Bungalow to the Education Department. The Bungalow is specially designed for a School. It is too large for the use of Travellers and is I believe very little used by Europeans and non-Brahmin native officers. If the Travellers Bungalow is restored to the Department, there need be no waste of public expenditure if a small bungalow like an Overseers Lodge with either one or two ~~Rooms~~ Suites of rooms be erected in the same Compound, which is very large, between the Stables and outhouses

outhouses on the South and the native kitchen on the north. I have marked the position of the new bungalow with red ink in the sketch. Thus the present Stables and outhouses as well as the native Kitchen will be utilised in connection with the new bungalow. The compound of the School which will be close to the road may then be separated from that of the new Travellers Bungalow by a hedge as marked in the sketch. The only expenditure if any that may be found to be wasted is the amount spent on the construction of two small bathrooms when the School house was converted into a travellers bungalow These two rooms will be quite useless They will be used to keep the books of the branch depot, maps, and School or gymnastic appparatteous, if the bungalow is again restored to the Department

5 I discussed these proposals with the ameldar and the principal people when I was at Vellalgud in 1892, and they all highly approved of them. If they are kindly sanctioned the school-going population will be greatly

greatly benefited The numbers on the rolls of the four Schools are as follows:-

Girl's School — 33

Town Boy's Kannada School — 60

English School — 43

Pettah Boy's Kannada School — 76

Total 211

Of the Total number the 33 girls and about 40 little boys will be kept in the fort, and the remaining 138 boys will be placed in the present Travellers Bungalow. The English School has to be amalgamated with the Kannada School from the 1st July next. If these proposals are sanctioned all the Schools will be greatly benefited

A No 7836/61 1891-92. (10/a)

ce of the Secretary to the
Government of Mysore, in the
Education Department.

Camp Belligere - 16th March 1892.

From

H. J. Bhabha Esqre M.A.
Education Secretary to the
Government of Mysore.

To

T. Ananda Rao Esqre B.A.
Chief Secretary to the
Dewan of Mysore.

Sir,

I have the honour to inform you that during my recent tour through the Hassan District I found at Arkalgud a commodious and handsome school building constructed on ~~the standard plan of Col. Sankey converted~~ into the travellers' Bangalow, while the Taluk main school with 48 pupils is situated in a dwelling house in the Fort, which was at one time the residence of the Amildar, the Petta Branch Kannada School with 88 pupils is held in a rented and very unsuitable building in the Petta, and the English School with 31 pupils is located in a small house which was the

Sheikdar's Office. all the three houses are not suited to the purposes of a school. The English school and the Pete Branch Kannada school are situated very close to the Travellers' Bangalow. I propose to combine shortly the English school with the middle classes of the Fort School and the Pete Kannada school and form a good Anglo-Vernacular middle School for the town of Arkalgud which contains a population of 4500 inhabitants. This Anglo-Vernacular School could not be better located than in the present Travellers' Bangalow, while for the convenience of little children, primary classes for boys and the Girls' school may remain in the Fort in the present school building. If Government will be good enough to restore the Travellers' Bangalow to the Education Department for the location of the Anglo-Vernacular School, and order a new Travellers' Bangalow to be constructed at the back of the present Bangalow, in a portion of the large compound between the present outhouses and the native kitchen, at a moderate cost of about 3000 Rs, such a change will be highly beneficial to the schools of this important town. Both the Kannada Taluk and the English schools are in a satisfactory state and would receive much encouragement

of they be provided with a suitable school house

I have the honour to be,

Sir

Your most obedient servant,

H J Bhabha

Secretary.

Office of the Director of Public Instruction.

Bangalore 5th May 1887

From,

The Director of Public Instruction
Mysore and Coorg.

To,

The Superintending Engineer
Mysore.

Sir,

At the end of the year 1875, a wing of the Government School house at Arkalgud in the Hassan Taluk was placed at disposal of the Deputy Commissioner for use as a Traveller's Bungalow. The situation of the building has always been an obstacle to getting up a good School in the place, and it has now been resolved

to remove the school to the old Taluk Cutchery in the Fort and to open a Branch school in rented premises in the Petta. Under these circumstances I would request that the entire School house may be taken over from this Department, as being not now required for School purposes, to be utilized as a Traveller's Bungalow or in such other way as may seem best.

2 And with reference to the transfer of the above mentioned premises from this Department, as also the School house at Maddur given up to the Mysore State Railway in 1879 (See C.C.O Gen. No. 1340 dt. 18th April 79)

I have the honor to propose

that the saving in expenditure on buildings for other Departments which has thus been caused may be credited to the Educational Department, to be applied to the erection of premises in places where they are urgently required as at Yedahalli in Lakvalli Taluk, estimate for which was received with your letter No. 1729 of the 4th Instant.

3. As a precedent for the above proposals I may refer to the case of Shikarpur, where the School house being surrendered to the Judicial Department for a Munsiff's Court, new School premises are being built in compensation

To

T. Ananda Rao Esqre,
Chief Secretary to the
Dewan of Mysore

Sir,

With reference to the correspondence called for in the Proceedings of Government, Order No 1107 / L 219 dated the 18th / 19th April 1892, I have the honour to inform you that subsequent to his letter No 537 dated the 5th May 1881 and addressed to the Superintending Engineer, which is mentioned in the Proceedings, the Director wrote to the Secretary to the Dewan his letter No 1391 dated the 11th July 1881 relative to the construction of a house for the Taluk School at Yedehalli. In the concluding sentence of this letter the Director asked for some compensation for relinquishing the school houses at Arkalgud and Maddur, just as he

did in para 2 of this letter. No 537 above mentioned. The Dewan ordered on this letter in his Proceedings No $\frac{3203}{23}$ dated Bangalore 16th July 1881 that the construction of a new school building at Yedehalli should be referred. No compensation has been given to the Education Department for relinquishing the school house at Arkalgud. Irrespective of the claim for compensation made by the Director, the school house at Yedehalli was built in 1886-87 by the Public Works Department from Provincial funds, the completion report of the building were received in July 1887. The school house at Madalur re-placed temporarily at the disposal of the Mysore State Railway Department in May 1879 and was restored to the Education Department in June 1881.

2. Copies of the marginally noted papers are appended to this letter for ready reference.

3. I have merely to add that the state of the Kannada schools at Arkalgud and the number on their roll which have very much improved

1. DPI's letter No 537 dated 5th May 1881 to the Superintending Engineer.
2. DPI's letter No 1391 dated 11th July 1881 to the Secretary to the Dewan.
3. Proceedings of the Dewan No $\frac{3203}{23}$ dated 16 July 1881.
4. Docket No $\frac{1724}{10}$ dated 7th June 1881 from the Secretary to the Dewan to the D. P. I.

since 1881 and the establishment of an English School justify the recommendation I have submitted in my letter to you No 7836/61 dated the 16th March 1892

I have the honour to be,

BRB

Report to accompany estimate for the repairs of the School House at Arkalagode and for converting a wing of the building into a Travellers Bungalow & constructing out-houses for travellers.

The School building at Arkalagode having been placed at the disposal of District officers & travellers, a wing of the building is taken up and partitioned off for a bath & Dressing room and one large Bed room

II. There are no out houses at present for the building and travellers find it very Inconvenient when rain falls & when high winds blow; a set of two rooms is provided one for a kitchen and the other a Stable, the old material of the abandoned Sepoy's Shed will be utilised for this work. The walls will be of Burn Brick in clay plastered with chunam and the old roof & tiling of the Sepoy's Shed will be used for the roofing.

III. The whole of the building leaks all over, The flat & pan tiles will have to be removed and reset with 1/4 new pan & 1/8 new flat, and the chunam borders redone, petty repairs are also provided for the Basement outside, as the white & color washing is very dirty, the Building will have to be white & colorwashed again.

No 273

Executive Engineer's Office
Hassan Division
Dated Seetharpur 28 Nov 1887
Desp'd. 30. do.

From

C. R. Subroyer. Esq. B.A.B.C.E.
Executive Engineer
Hassan Division.

To

The Superintending Engineer
of Mysore P.W.D.

Sir,

I have the honor to report that an estimate amounting to Rs. 1158 was submitted by me with this Office No. 37 dated 28th. February last, for converting the Arkalgode school into a Travellers' Bungalow. My proposals will be found noted in the enclosed Office copy of the plan of the building.

2. The estimate was revised and sanctioned by the Superintending Engineer for Rs. 1132 in his No 999/171 dated 18-3-87.

~~Copies of~~ the sanctioned plan and estimate

are herewith sent for reference.

3. The inside buttresses A A A A (office copy of plan) had been removed, the walls of the bath rooms and verandahs built up and the wood work for the additions put on, when it was reported that owing to the incessant and heavy rains of the 9th and 10th of last month the front and rear gables, which till then shewed no signs of weakness, have been considerably thrown out of plumb, seriously cracked from top to bottom and owing to this outward motion of these walls the new walls of the bath rooms and the verandah which were built into them have also been thrown out of plumb.

4. I inspected the building on the 27th of the last month. I found the rear gable walls out of plumb by so much as 5 inches at the top and

above

above the level of the new walls of the bath rooms, serious cracks appearing at a a a a from top to bottom. The gable walls themselves have cracked in all directions very badly above the level of the bath room walls and somewhat to a less degree below that level.

5. The gable walls in front are only very slightly out of plumb; but the new walls of the verandah are far out.

6. I found also that the old corner buttresses were not bonded into the walls but built independently. From this I infer that the gable walls must have shown signs of weakness after the building was completed and the buttresses subsequently built to prop them up. Had it not been for the of the bath room and verandah

the old walls, at least the rear gable walls, might have ——— completely fallen down.

7. I attribute the damage partly —

(i) to the incessant heavy rains saturating the high and top heavy gable walls very badly,

(ii) to these walls having been built with a large proportion of unburnt bricks,

(iii) to the removal of the buttresses.

If the new bath room and verandah walls had been built thicker, or had buttresses been built as originally proposed by me, these would have probably resisted the outward motion of the old walls with a greater force and the damages would have been probably less serious.

8. To prevent further motion, I have now dismantled the rear gable walls upto the level of the bath room walls and

and I beg to recommend that all the new walls together with the rear gables be removed to the foundation level, and reconstructed — the new walls with a thickness of 2 bricks instead of 1½ as sanctioned, or retaining the sanctioned thickness with the buttresses as proposed by me.

Q. The roof of the building is anything but waterproof, the previously yearly repairs have added coats after coats of plaster over the flat tiles aggregating in some parts to a thickness of 3" and in many places tin plates and Zinc sheets have been put on the plaster and under the tiles. The result is the tiles frequently slip down during the monsoon, the roof has become very heavy and the pitch is more than is usually allowed for this kind of roof

10. I recommend also that the present roofing- materials be removed, the pot tiles sold, the extra rafters and also flat tiles if they be found of good quality being utilized on the new Bungal terrace roof of the verandah and bath rooms and Mangalore tiles substituted.

11. A revised estimate based on these lines is herewith submitted for sanction.

I have the honor, &c,
Sir,
Your most obedient servant

Executive Engineer
& asstt Division.

Asst Secretary

(15/C)

Office of the Director of Public Instruction

Bangalore 5th May 1881.

From

The Director of Public Instruction,

Mysore and Coorg.

To

The Superintending Engineer

Mysore.

Sir,

At the end of the year 1875 a wing to the Govt: School house at Arkalgud in the Hassan Dist. was placed at the disposal of the Deputy Commissioner for use as a Travellers' Bungalow. The situation of the building has always been an obstacle to getting up a good school in the place, and it has now been resolved to remove the school to the old Taluq Cutchery in the Fort and to open a Branch school in suitable premises in the Petta. Under these circumstances I would request that the entire School house may be taken over from this Dept. as being not now required for School purposes to be utilized as a Travellers' Bungalow or

or in such other way as may seem best.

2. And with reference to the transfer above mentioned premises from this Dept as also the School house at Guddur 9 up to the Mysore State Railway in 1879 (See C.C.O. No: 134 dated 18th April 1879), I have the honor to propose that the saving in expenditure buildings for other Departments which has thus caused may be credited to the Education Department, to be applied to the erection of premises in places where they are urgently required, as at Yedahalli in Lakvalli Tq: estimate for which was received with your letter No: 1729 of the 4th instant.

3. As a precedent for the above proposals I may refer to the Case of Shikarpur, where the School house being surrendered to the Judicial Dept, for a Munsiff's Court, new School premises are being built in compensa

Office of the Director of Public Instruction

Bangalore, 11 July 1881

From

The Director of Public Instruction

Mysore

To

The Secretary to the Dewan

of Mysore.

Sir,

In reply to docket No. 1333/8 of the 23rd May, I have the honour to state that the town of Yedehalli is divided into two parts, the Fort and the Petta, which are a considerable distance from one another. Hence it was found necessary to establish a Branch School in the latter for the convenience of the children there, and the attendance is 33. The maintenance of the Branch seems very desirable.

2. Should suitable School premises, which are very much needed, be erected in such a position as to meet the wants of both parts of the town, it would probably be necessary to have two Schools. Provision for such a building was made and the work about to be commenced when the famine put an end to it. Since that, an estimate for a simpler building in the country style

to cost Rs 1654 has been sent to me from Works Department. But we are without funds for undertaking it, unless, as proposed by me in previous correspondence some compensation be granted to this Department for relinquishing the school houses at Arkalgud and Maddur.

I have &c

11/6/92

To

The Executive Engineer
Municipal Corporation
Ahmedabad

Sir,

I am the owner of the property bearing C.S. No. 7/1 of Ward No. 5 situated at Ellisbridge, Ahmedabad. I have purchased the said property from Shri Ramanbhai Chhotabhai Patel and Shri Jayantibhai Chhotabhai Patel vide Sale Deed dated 10th June 1992 registered with the Sub-Registrar, Ahmedabad City-1 at Sr. No. 3337 in Book No. 449. The said property is a residential bungalow consisting of ground floor and first floor.

I intend to demolish the existing bungalow and construct a new residential building thereon. For this purpose, I am required to obtain permission from your office.

I shall abide by all the rules and regulations of the Municipal Corporation in this regard.

Thanking you,

Yours faithfully,
